THE STORY

> *Every signal led here, every shadow finally gone — a door that waited beneath the noise, found only because we stopped waiting for permission. Change often waits beneath the noise of everything we think we must first obtain — approval, certainty, the right moment. What door might open the moment you stop asking permission to walk through it?*

LYRICS

The Door We Found

INSTRUMENTAL INTRO

VERSE 1

We stood where walls were closing in
On everything that might have been
The ground beneath us started shifting
Into another current drifting
We stopped waiting for permission
Static fading from our vision
The cracks became a glowing way
Somewhere the night began to change

PRE-CHORUS

Feel it opening… (opening)
Feel it calling… (calling)
Keep on falling…
Step inside…

CHORUS

This is the door we found
After all the sirens drowned
This is the door we found
Somewhere underneath the sound
Every signal led us here
Every shadow disappeared
This is the door we found
And it feels unreal

VERSE 2

We carried echoes from before
Half-broken dreams across the floor
But every piece we left behind
Created space to realign
The silence here no longer burns
Every red light finally turns
We stepped beyond the neon tide
With nothing left for us to hide

BRIDGE

Some doors close without a sign
Some disappear with passing time
But this one waited somewhere deep
Beyond the noise beneath the streets

PRE-CHORUS

Feel it opening…
Feel it calling…
Step inside…

POWER CHORUS

This is the door we found
After all the sirens drowned
This is the door we found
Somewhere underneath the sound
Every signal led us here
Every shadow disappeared
This is the door we found
And it feels unreal

OUTRO

Somewhere underneath the sound…
This is the door we found…
