THE STORY

When someone leaves, the world carries on as if nothing has changed. The phone stays dark, the streets still hold the marks we left together, and a favorite song becomes an echo we cannot escape. We keep the door open and the ring on our hand long after the other person has stopped feeling anything at all. How long can you hold your breath for someone who is no longer coming back?

Lost in the shadows...
Where did you go?
Yeah, yeah...

VERSE 1

I check my phone but the screen is just dark
Walking the streets where we once left a mark
The winter is cold, and the night is so long
I'm trapped in the echo of our favorite song
You promised forever, you promised the light
But you left me bleeding alone in the night.

PRE-CHORUS

And I'm standing here, I am fading away
With so many things that I wanted to say
Yeah, I'm screaming your name, but there's nobody
there
Just an empty room and the cold, silent air!
I can't face the truth, I can't hide from the pain
It's washing over me just like the rain!

INSTRUMENTAL BUILD-UP

BUILD-UP

Do you hear me?
Are you listening?!
Bring back... the light!
Oh, bring it back!

CHORUS

I am drowning without you!

Drown-drown-drowning!
Without you!

VERSE 2

I try to forget the look in your eyes
The beautiful promises, beautiful lies
My arms are still open, I'm locking the door
Hoping you'll walk through it just like before
But you don't care, no you don't feel a thing
While I'm still wearing your golden ring.

PRE-CHORUS

And I'm standing here, I am fading away
With so many things that I wanted to say!
I can't face the truth, I can't hide from the pain
The bass is dropping, it's driving me insane!
