THE STORY

*Absence has its own vocabulary. A coat still hanging by the door, a coffee cup no one touches, footsteps that turn out to be rain. By day we tell ourselves we have learned to heal; at night the mind speaks fluently in everything we lost, and for a few hours the person we miss is close again. Is it a kindness or a cruelty that the heart keeps dreaming in a language the waking world no longer speaks?*

SONG STRUCTURE

# Language of My Dreams

## INSTRUMENTAL INTRO

### VERSE 1

Your coat is hanging by the door  
Just like it did the night before  
I tell myself I've learned to heal  
But every shadow makes you real

I hear your footsteps in the rain  
And turn around to look again  
The world moves on, the seasons  
change  
But in my heart, you still remain

### PRE-CHORUS

I've tried to run  
I've tried to hide  
I've crossed a thousand miles tonight

But every road  
And every street  
Still brings your memory back to me

### CHORUS

Your absence is the language of my  
dreams  
A thousand silent words inside of me  
I close my eyes, you're closer than you  
seem  
But when I wake, you're only just a  
dream

Your absence is the language of my  
dreams  
The sweetest lie my lonely heart  
believes  
And every night, no matter where I've  
been  
I fall asleep to find you next to me !

## INSTRUMENTAL DROP

### VERSE 2

Your coffee cup is on the shelf  
I never touch it by myself  
The smallest things you left behind  
Are all the things I cannot find

I see your face in passing cars  
I search for you among the stars  
And though I know you're far away  
There's still a part of me that stays

### PRE-CHORUS

I've tried to run  
I've tried to hide  
I've crossed a thousand miles tonight

But every road  
And every street  
Still brings your memory back to me

### CHORUS

Your absence is the language of my  
dreams  
A thousand silent words inside of me  
I close my eyes, you're closer than you  
seem  
But when I wake, you're only just a  
dream

Your absence is the language of my  
dreams  
The sweetest lie my lonely heart  
believes  
And every night, no matter where I've  
been  
I fall asleep to find you next to me !

## INSTRUMENTAL BREAK

### BRIDGE

If time could take the pain away  
Why does it hurt me more each day?  
If love was meant to set us free  
Why are you still a part of me?

And if I never see your face  
I'll keep your memory in its place  
Somewhere between the dark and light  
Where I can love you every night

### FINAL BUILD

#### FINAL CHORUS

Your absence is the language of my  
dreams  
A thousand silent words inside of me  
I close my eyes, you're closer than you  
seem  
But when I wake, you're only just a  
dream

Your absence is the language of my  
dreams  
The sweetest lie my lonely heart  
believes  
And every night, no matter where I've  
been  
I fall asleep to find you next to me !

### FINAL INSTRUMENTAL DROP

### OUTRO

And when the morning steals the night  
Your memory fades into the light

But when the stars return to shine  
I know I'll find you one more time
