THE STORY

> *A quiet tension filling the room, every look a signal — something alive living in the space between us, closer now, closer now. Not every connection begins with words. Sometimes it grows in the pause before speaking, in a glance held one heartbeat too long. What would happen if you stopped waiting for the right words and trusted the space between you?*

LYRICS

Between Us

VERSE 1

A quiet tension fills the room
Like the air begins to change
Every look becomes a signal
Every step feels rearranged
We are standing in the distance
Yet the space is getting small
Like the night is slowly moving
To the edge of letting fall

PRE-CHORUS

Like a secret only we can hear
Every second pulls the line
Close to yours
Close to mine

CHORUS

Something alive is living here
Something is living here

Closer now
Closer now
Feel the space breaking down

VERSE 2

Your eyes linger just a second
Like a question left in air
Like the night itself is listening
To the silence that we share
Maybe nothing will unfold
Maybe everything will start
Sometimes destiny is hidden
In the pause before a spark

BRIDGE

Still no word
Still no sound
Yet the gravity pulls us down
Through the quiet
Through the blue
Something formed between the two

Sometimes the strongest connection
Begins in silence

FINAL CHORUS

There's a spark in the distance
Guiding the way
Every heartbeat
Pulling the day

No explanation
Nothing to prove
Just a moment
Starting to move
